

Admissions

The Teresa Dellar Palliative Care Residence has a total of 23 beds, providing compassionate care thus allowing the terminally ill to die in comfort and with dignity in a warm, home-like environment, close to their family, and in their community. It is a non-profit organization that relies on community support. The Residence's team of physicians, nurses, supportive care workers and volunteers come together to address the needs of our patients and their family.

To be eligible for admission:

- ❖ have a terminal diagnosis
 - ❖ not be undergoing any current life sustaining or prolonging forms of treatments
 - ❖ not having made a request or a plan for medical aid to die
 - ❖ has a less than 3 months prognosis
 - ❖ residing or have been treated in the CIUSSS West Island territory
- or
- ❖ main caregiver resides in the CIUSSS West Island territory
 - ❖ Completed application
 - Medical information provided by a health care team
 - Consent form
 - Understood and signed by patient, if capable, or natural caregiver.

Despite receiving all required documentation, there may be a delay to an admission in relation to bed availability at that particular time. Please be aware that admissions do take place Monday to Friday, except during statutory holidays. Not everyone who is dying requires specialized palliative care and as our beds are limited; people who suffer from uncomfortable symptoms take priority.

The out of pocket expenses for patient and/or family are:

- the portion of medications not covered by their drug insurance (including RAMQ)
- any specialized medical supplies (specialized dressings, ostomy supplies etc.)
- toiletries (including incontinent products)
- transportation costs if incurred (extra-ordinary circumstances)

All of our rooms:

- | | | |
|----------------------|------------------------------------|---------------------------------|
| ❖ Private | ❖ Mini fridge | ❖ No rigid visiting hours |
| ❖ Adjoining bathroom | ❖ WIFI accessibility | ❖ Option of a visitor overnight |
| ❖ Hospital bed | ❖ Computer station | ❖ Child friendly |
| ❖ Telephone | ❖ Natural light from large windows | ❖ Pet friendly |
| ❖ Television | | |

CONDITIONS FOR ADMISSION

Patient's name: _____

Before admission is considered, several criteria must be met and understood. These are described below.

❖ **No Cardio-Pulmonary Resuscitation (CPR):** I understand that because of my terminal illness, CPR is considered medically futile treatment. I agree that CPR is not something I want at the end of my life. Please allow me to die peacefully.

Initials _____

❖ I understand that I will be responsible for the cost of my medications via private or government insurance (RAMQ).

Initials _____

❖ It has been explained to me that the mandate of the Teresa Dellar Palliative Care Residence is to provide comfort care at the end of life. Treatments offered here are not aimed at curing disease. The services that are offered are intended for:

- increasing the patient's quality of life by providing pain and symptom management
- providing care which responds to the patient's physical, psychological, social and spiritual needs
- total care of the patient, including hygiene, skincare, positioning, hydration and feeding by natural means where appropriate. abstinence of any investigations unless deemed appropriate by the physician.
- **No transfer to hospital** unless it is needed for specialized pain/symptom management as per physician's orders (ex. to immobilize a fracture) **Initials** _____

❖ I understand that the Teresa Dellar Palliative Care Residence is **not** a long-term care facility. My health status will be reviewed regularly. Should my disease be deemed stable by the medical doctors, I and my family will be responsible for my transfer to a care environment that is appropriate to my needs. This could include a transfer home with appropriate and available community health care services and/or other nursing care services. This transfer will be discussed and organized in collaboration with myself, my family and the social worker from the TDPCR.

Initials _____

❖ I understand that the Teresa Dellar Palliative Care Residence is a smoke-free environment. If I desire to smoke (including vaping), I need to do so in accordance with the Quebec Laws. I also understand that I am responsible for having family and/or friends accompany/assist me as the staff member and volunteers may not be able to do so.

Initials _____

The following 2 clauses are applicable ONLY if the patient is apt to sign this consent him/herself.

I understand that medical aid to die (l'aide médicale à mourir – AMM) is not a part of the Teresa Dellar Palliative Care Residence's services. I understand the goal of palliative care is to offer me comfort via management of pain and other distressing symptoms. I understand that palliative care neither prolongs nor hastens death, but rather allows for death to occur in its own natural time and I have not made a request or a plan for AMM.

Initials _____

I have the right to change my mind to request medical aid to die: I understand that IF I change my mind and decide I want 'medical aid to die' as per my right under Quebec's law, I need to inform the palliative care physician of my wishes. The Teresa Dellar Palliative Care Residence's team will facilitate two physician evaluations, and should I qualify, I will receive AMM at the Residence provided by an external team.

Initials _____

By signing this document, I understand that CPR is not being offered at the TDPCR. I agree to the above stated conditions for admission to the Teresa Dellar Palliative Care Residence
